LE ROSÉ DE MAUBUISSON - ROSÉ

AOC COTES DU RHONE

SITUATION ET SOLS

Our Côtes du Rhône come from the Maubuisson plot in the South of Orange, composed of soils of gravel and clay-limestone, contributing to a highly appreciated aromatic complexity.

CEPAGES

50 % Grenache ,40 % Syrah , 10 % Marselan

CLIMAT

Mediterranean type with particularly hot summers. The Mistral hunts moisture, ensuring conditions quite favorable to the cultivation of the vine.

VENDANGE

Handpicking at optimum maturity, allowing selective sorting of harvest. We attach great importance to this point, which is qualitatively important.

VINIFICATION ET ELEVAGE

Direct pressing of whole grapes. Fermentation and aging in stainless steel tanks on fine lees (2 months). Bottled at the end of the year to keep all its freshness and aromatic palette.

CONSOMMATION

Pretty pale pink color with pastel undertones. Fresh and very aromatic on the nose, this wine has a delicate bouquet with notes of red fruit, and citrus. Good balance between sweetness and acidity in the mouth. We find notes of fresh fruit with beautiful persistence.

Our Côtes du Rhône are equipped with DIAM corks, guardian of the freshness of the aromas.
